

FSC Certification for Jabra/GN Audio Packaging

August 11, 2022

To whomever it may concern,

We at Jabra have set targets to minimize the environmental impact of our Products and Packaging through sourcing and design. The later has been achieved for all new packaging design from 2021 where FSC certified cardboard has been the main material used for our products. Combined with our minimalized size and the minimal plastics use we are aiming to reduce the amounts of material shipped and hereby also the overall carbon footprint of our Scope 3 emissions.

Please find proof of certificate of our Supplier in the overview below:
